Experience a heightened sense of relaxation

Daily Ritual - Enhance Well Being with the Serenity of Steam

For thousands of years, cultures around the world have indulged in the aromatic steam bath, which not only promotes optimum health but delivers a daily dose of soothing relaxation. While the ancient Romans and Chinese created elaborate baths to provide a sense of spiritual identity, the American cultures - from the Alaskan Eskimos to the Mayans - relied on daily steam baths to cleanse the body, promote rejuvenation and extend the quality of life.

Thanks to ThermaSol®, the steam bath, also referred to as the steam shower has reached a new level of advanced technological perfection that fuses the

elements of scent, sound, light and steam into a seamless and multi-sensory bathing experience. Now with the simple touch of a button, you can enjoy the rejuvenating power of steam each and every day in the privacy of your own home.

Bask in the beauty of the steam bath to achieve a restful sleep and higher energy levels. This simple daily ritual has the power to invigorate your senses and clear your mind resulting in a more effective and fully-relaxed you.

Benefits of Steam Therapy

The Ultimate Cleanse: Nothing releases toxins from the body with the same precision as the steam bath. The soothing warmth opens the pores, which lifts out the impurities of everyday living. Soft, supple and healthy skin minus the use of harsh chemicals is the conclusion.

Promoting Good Health: Home steam baths are great for promoting good health. Allergy sufferers often turn to daily steam therapy as steam inhalation supports the respiratory system and may help sufferers to alleviate their sinus afflictions.

Muscle Relaxation: Steam baths generate heat, which in turn helps aching muscles to relax; widening the blood vessels, allowing more oxygen to flow

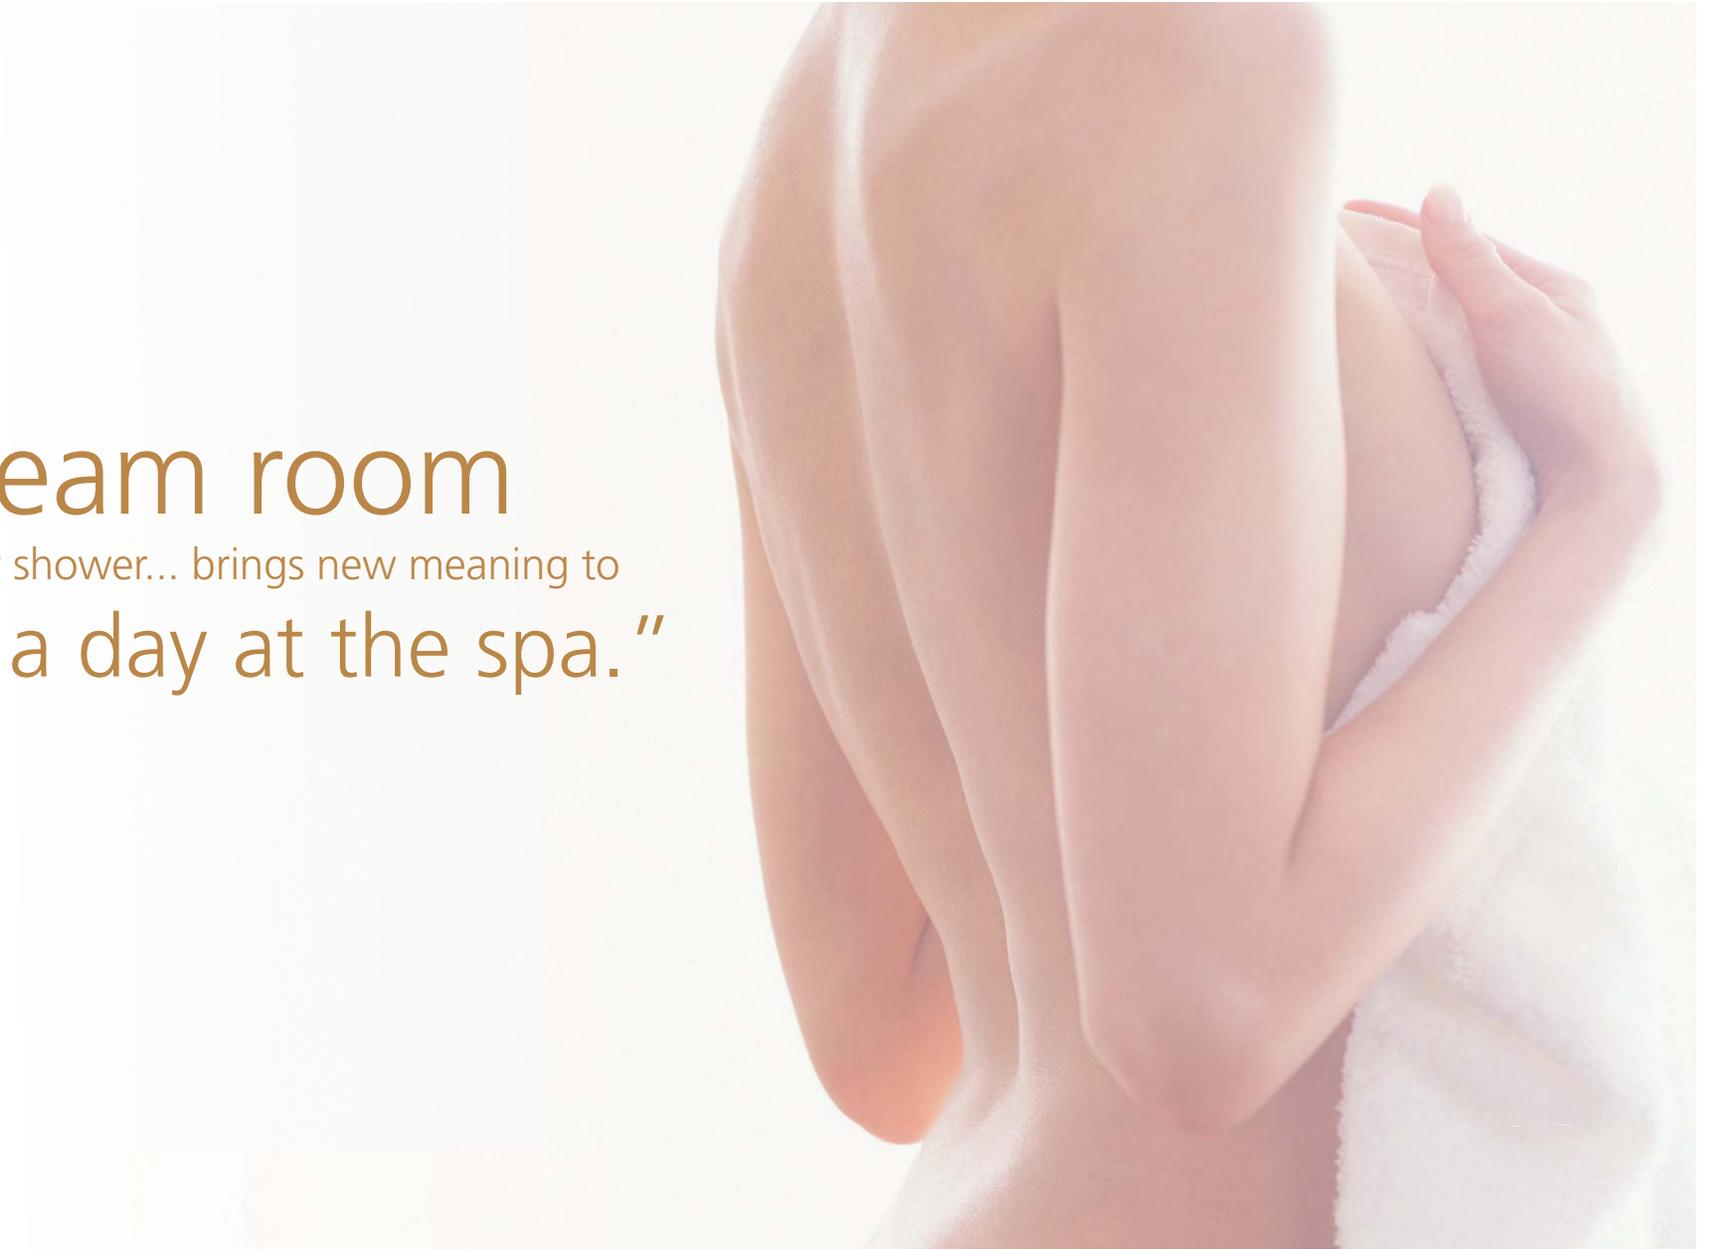

through them and in turn releasing tension. Many users feel that the heat generated by steam causes the whole body to slip into a state of inner sanctum rendering steam baths perfect for those who suffer from arthritis or consistent muscle pain.

Eco-Friendly: Steam showers conserve more water than the regular shower or bath. With green concerns on the rise, these units take only one gallon of water to power a 20-minute steam bath as opposed to regular showers which can consume 30-gallons of water. Taking a steam is responsibly green.

Dream: Steam bathing is known to help promote a better night's sleep resulting in a more revitalized you.

a steam room
in your shower... brings new meaning to
"a day at the spa."

A Residential Steam Shower is the Essential Upgrade

SteamSuite Series Generators include FastStart™, Manual PowerFlush, and a custom-fit drain pan. These generators come complete with a time/temp control and steam head. Utilizing an analog operating system they stand as the value leader, and carry a 6 year factory warranty.

AF Series Generators – State-of-the-art 100% digital CAN-bus technology with Auto PowerFlush™, stainless steel construction, and FastStart™, steam in seconds rather than minutes. A Lifetime Warranty is included on AF Series generators.

ProSeries™ Generators – the best of the best. They include all the features of the AF Series™; CAN-bus Digital Technology, Auto PowerFlush™, FastStart™, stainless steel construction, and a Lifetime Warranty. Furthermore they include a drain pan, and the most significant feature in steam bathing, SmartSteam™. SmartSteam is a revolutionary technology in temperature maintenance. Finally, no more irritating hot and cold temperature fluctuations. You won't see it but you will definitely feel it!

All ThermaSol generators include a Lifetime Factory Warranty!

We Know Design is Important

Match your steam controls and steam head to your plumbing fixture style. “Modern,” “Contemporary,” “Traditional” or even “Transitional” and with a choice of 14 finishes. ThermaSol offers the most advanced technology and original design styles in the industry. Bring total personalization to your home spa.

Serenity Light & Music System

Elevate your bathing experience to a new level through chromatherapy and soothing sound.

Revel in the power of color and sound with ThermaSol's invigorating Serenity Light & Music System, which transforms steam bathing into a soothing symphony of artistic splendor. Peaceful

color palettes stimulate your senses with a brilliant spectrum of gradual change. Mood-enhancing chromatherapy treatments and tranquil tunes are guaranteed to promote a restful bathing experience.

Serenity Light & Music System is a self contained, showerproof, compact module that produces a high-intensity full spectrum light and sound for the most relaxing chromatherapy experience, with the new Voice Response Feedback feature.

ThermaSol Light & Music Systems manufactured after June 1, 2011 are Bluetooth enabled. Users are able to stream their favorite audio tracks to the Light & Music system from their Bluetooth enabled devices. Ask your local dealer for more information on this industry first from ThermaSol.

Light and Music Control:

System can be controlled by either the Temp-Touch or Signature Series line of controls and optional remote control. Remote can be added after installation.

The Light:

- The full spectrum of red, blue and green is at your fingertips.
- Infinitely adjustable light spectrum for soothing shade of color for home chromatherapy.
- Provides white light that can be adjusted to your liking.
- Mood Light Mode automatically generates a gradual soothing spectrum color.
- ThermaSol's light system uses the latest in high intensity LED design.
- Light system is self contained within the single light and sound module.
- Full spectrum light generation from 18 ultra high intensity LED light generators.

The Music:

- Self-amplified multi-channel system.
- Built-in FM receiver and two additional input source interfaces.
- Inputs from portable CD, DVD, TV, satellite radio, MP3 and cable box compatibility, etc.

The Voice Response:

With the Serenity system, your control inputs are automated through the music speakers. For example, press the steam button and hear, "steam session beginning, please sit down." There are many audible responses included in the system. Voice response can be turned off for total solitude if desired.

Shown: Modern Light and Remote in Chrome Finish

Remote Control: Optional remote control available to enhance the entire steam, light and sound shower environment. (From your total system, make your selection and ThermaSol's voice response confirms your selection).

The Soothing Power of Chromatherapy

Upgrade your steam session with the ultimate in color therapy. Chromatherapy is an alternative healing method which uses color and light to balance energy wherever the body is lacking, be it physically, emotionally, spiritually or mentally. Drawing from the theory of Indian Ayurvedic healers, ThermaSol has based their calming chromatherapy treatments on the chakras. Each of the seven chakras is associated with an organ or system in the body. Below is a description of each chakra, its corresponding color, location, and physical/emotional association.

Red / Lower Body: Associated with courage, loyalty and perseverance. Red, the color of life and desire, is said to increase blood pressure and circulation.

Orange / Pelvis: Orange evokes compassion. It symbolizes the sun and makes us alert and cheerful. Orange is used to treat depression, discontent and pessimism.

Yellow / Stomach: Promote feelings of freedom. Believed to have effects that greatly assist the metabolism, strengthen the nervous system and combat glandular disease.

Green / Heart: Creates a harmonizing effect. Promotes relaxation and detoxification.

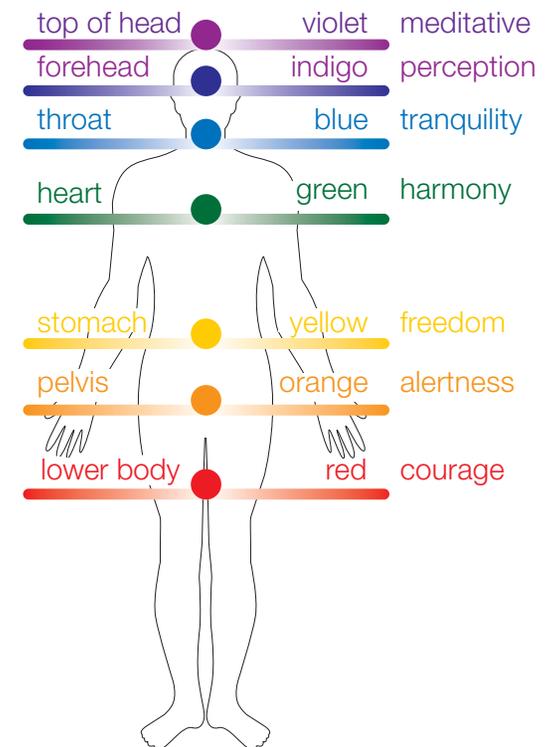

Blue / Throat: Promotes peace and infinity. Is believed to relieve headaches, migraines, stomach pains and muscle cramps.

Indigo / Forehead: Promotes perception and intuition. It is applied in health treatments for the eyes, ears, nose and is commonly used to treat addiction.

Violet / Top of Head: The most meditative color. Used to soothe organs, relax muscles and calm the nervous system.

Your chromatherapy experience is heightened when paired with the power of steam and the restorative effects of aromatherapy.

Chakras and Chromatherapy

Aromatherapy for the Mind and Body

Elevate your bathing experience to a higher level of complete renewal with ThermaSol's Essential and Precious Reserve Aromatherapy Oils. Simply add two to four drops of these aromatic oils to the steam head reservoir in your Steam Shower.

Essential Oils

- **French Lavender** Promotes calming and relaxing effects.
- **Portuguese Eucalyptus** Stimulates, soothes and cools.
- **Italian Bergamot** Citrus scent reduces anxiety, depression and insomnia.
- **Madagascar Ylang Ylang** Effective aphrodisiac with a tranquil, warm aroma.
- **French Rosemary** Calms nerves, improves memory, confidence and creativity.
- **Egyptian Geranium** Relieves stress, anxiety, fatigue and PMS symptoms.
- **Energize Oil Blend** Invigorates the senses, improves circulation and relieves headaches.

Precious Reserve Oils

- **Bulgarian Rose Absolute** Uplifting and a natural aphrodisiac.
- **Indian Jasmine** Eases worry, anger, depression and irritability.
- **Italian Neroli** Alleviates depression, insomnia, and is a natural skin beautifier.
- **French Roman Chamomile** Relieves emotional anxiety and tension.

Rose HydroSol & Lavender Mist

Our refreshing and therapeutic Bulgarian Rose Hydrosol and French Lavender Mist hydrate, soothe and nourish your skin.

- Our gentle Rose Hydrosol is the authentic co-product of rose distillation.
- Our relaxing Lavender Mist is made from organic lavender angustifolia from Provence, France.

Experience true aromatherapy refreshment anytime as our body sprays are conveniently packaged in 3 oz/90 ml sizes. For more information on ThermaSol Aromatherapy visit our website at www.thermasol.com.

Do not use this product unless you have consulted with your doctor and received written permission to do so. Use of this product may be hazardous to your health. Never attempt to fill the aroma reservoir on the steam head when unit is in the "ON" position. Severe burns will occur.

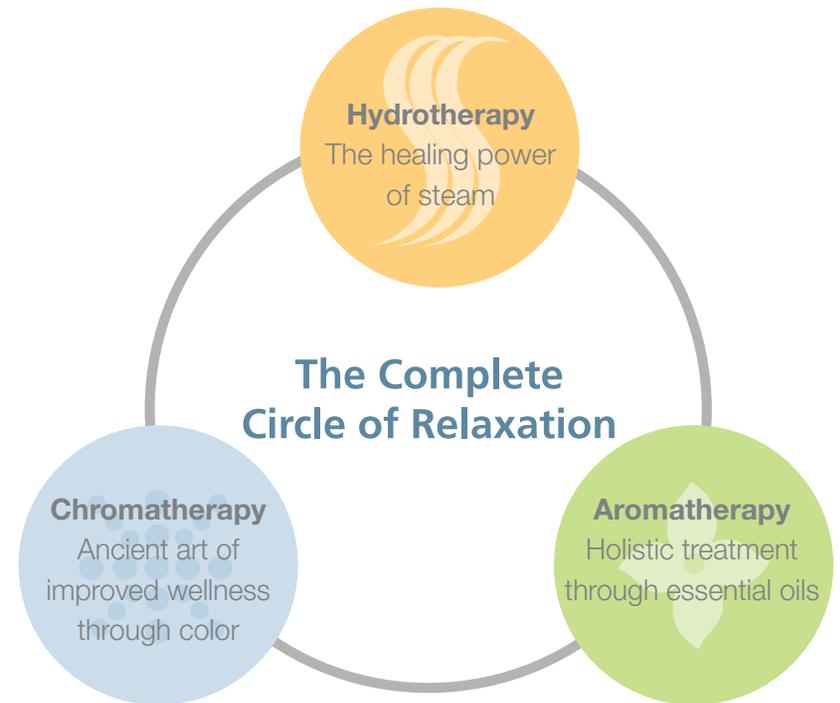

The Complete Circle of Relaxation: Three Holistic Healing Methods

ThermaSol brings the bathing experience full circle with their innovative in-shower options. Experience the ultimate in relaxation by enjoying all three therapies during one session. Hydrotherapy immediately relaxes you through the power of steam, while chromatherapy evokes your ideal mood and aromatherapy invigorates the senses. The combination of these natural holistic remedies refresh your mind and body and provide you with a daily measure of tranquility. Chromatherapy is included with the Premium or Ultimate Control package. This puts the seven chakras of chromatherapy at your finger tips. Depending on your needs for the day, each chakra is easily selected directly on the in-shower Temp-Touch or Signature Series control and even the handheld remote control (Included with Ultimate Package or sold separately).

Hydrotherapy: For centuries, people have relied on the restorative power of water to soothe pain and remedy illness. Hydrotherapy is the use of steam and vapor to promote ultimate relaxation. Conventional uses of hydrotherapy help to stimulate circulation, tone body tissues, alleviate pain, relax nerves and enhance overall well being. (see page 10 for more information)

Chromatherapy: Delight in the power of color. This alternative healing method uses color and light to balance energy wherever the body is lacking. The underlying principle is that certain colors, or the absence of color, can affect your body and mood. Therefore, implement colors that evoke the specific emotions you would like to conjure. Soothing blue, meditative violet and harmonious green are the perfect complement to your bathing session. (see pages 12-13 for more information)

Aromatherapy: Let nature calm your body and mind. Aromatherapy is the use of essential oils which are sourced from aromatic plants and flowers that stimulate the sense of smell and are absorbed through the skin. Rejuvenating scents are believed to improve mood and promote wellness. (see page 15 for more information)

50 Years of Engineering and Innovation

ThermaSol has been engineering the most technologically-advanced steam shower systems since 1958 when my grandfather created the first steam bath unit for a residence on Park Avenue in Manhattan.

We've come a very long way since then; today we are manufacturing the only 100% digital networked steam systems in the world - the safest and most reliable technology - while all others are still using old analog technology. I'm certain my grandfather would be proud of our unrelenting commitment to development and the tradition of engineering excellence he initiated.

Starting out as a precocious ten-year-old, I helped build generators on the production line, thereafter I held virtually every position at the company, and in 1989 took the reins as CEO. Since then we have introduced multiple industry patents and cutting-edge innovations - FastStart™, SmartSteam™, Thermostatically Controlled Retractable Steam head, Simple Sizing, Lifetime Warranty and a light

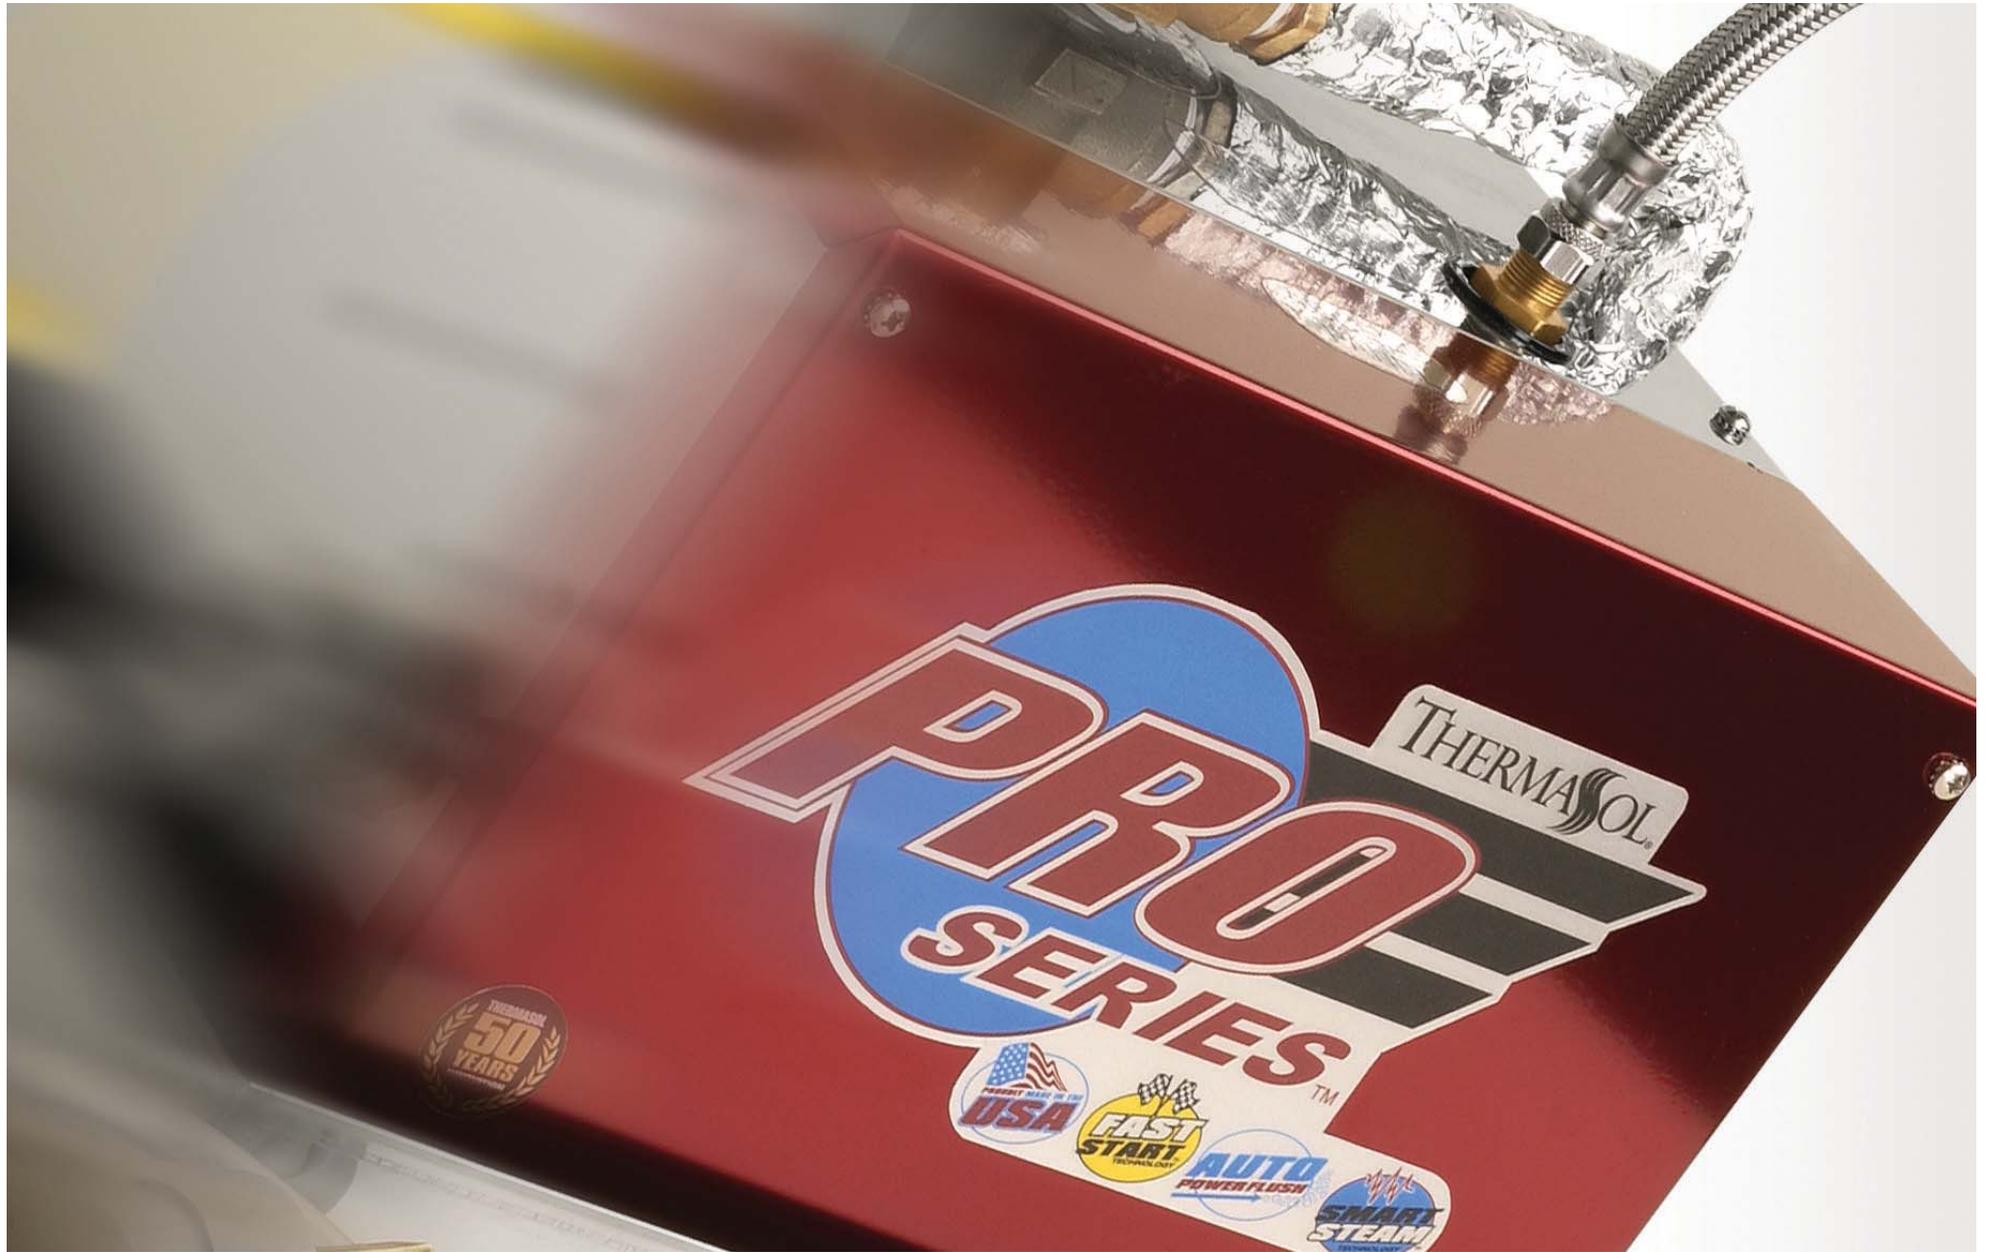

and music package that bring our clients the most enjoyable experience; whether taking a steam shower or just using a traditional shower. We've dramatically changed the daily shower experience, to a get-away spa experience, in the privacy of your own home!

To the distributors and their showroom personnel; to the architects and designers who have chosen ThermaSol for their clients; and owners of hotels, health clubs and day spas, thank you for your unwavering support. Your willingness to learn and educate has kept our company at the forefront. We pledge to continue listening and developing so that your clients will never have to compromise.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Mitchell Altman', with a stylized flourish at the end.

Mitchell Altman
CEO

50 Years of Engineering and Innovation

FastStart™ Steam in Seconds

FastStart™ is an innovative patented technology that enables all of ThermaSol's models to begin producing steam in seconds, rather than five to ten minutes, typical of other units on the market.

Thermostatically Controlled Retractable Steam head

An industry first! Engineered for superior safety, the steam head is flush to the wall when not in operation. Its center automatically protrudes when the generator is activated, and retracts upon completion of the steam session. Healing aromatherapy oils can be added to the steam head and dispersed within the steam to create a more relaxing, restorative bathing experience.

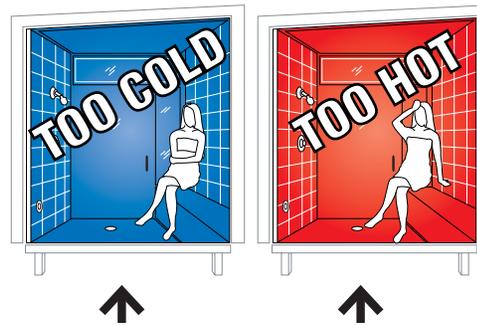

SmartSteam™

Ultimate in Temperature Maintenance means Ultimate Comfort!

SmartSteam™ technology is a patented innovation which provides you with the ultimate in steam bath comfort! No longer will you have to endure steam bursts and complete shut down of steam, which is typical of standard steam bath's temperature maintenance. You don't want **TOO HOT, TOO COLD** or **ONLY ON** or **ONLY OFF**. With SmartSteam™ you have **EVEN HEAT** and the ultimate in whisper-quiet operation and comfort. SmartSteam™ technology is a patented innovation that learns your ideal steam room temperature and maintains it throughout your entire steam bathing experience. This technology produces the precise amount of steam required to keep the room at your optimum temperature while conserving energy and water.

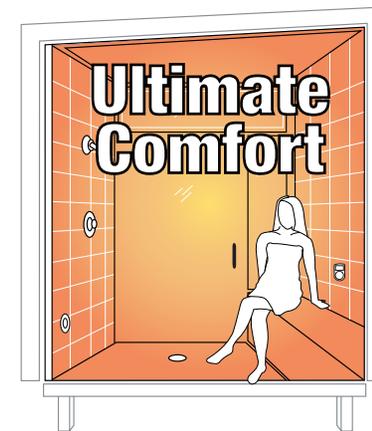

(This **PATENTED** proportional heating system is only available on the ProSeries™ line of generators.)

You don't want this!

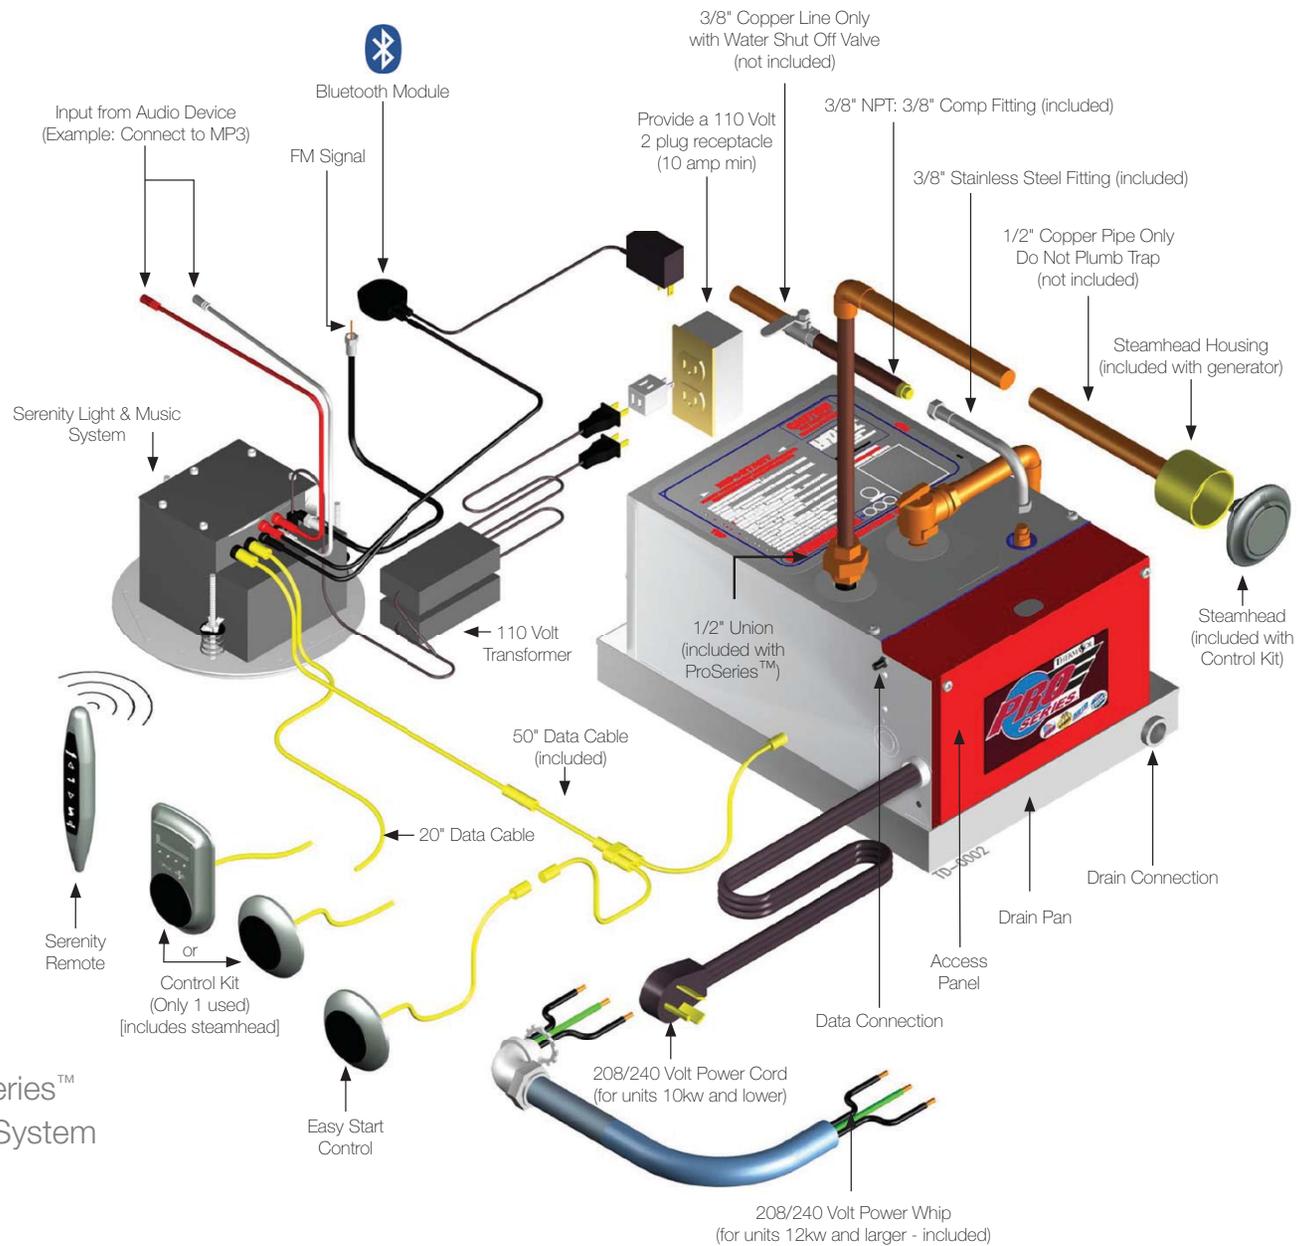

Competitors' generators have annoying fluctuations in temperature.

This is what you want.

SmartSteam™ delivers the ultimate in temperature maintenance - without annoying temperature fluctuations!
The ultimate in user comfort.

The Most Comprehensive and Fully Featured Steam Shower and In-Shower Environment in the Industry!

Shown: ProSeries™ Full Function System

Installing a ThermaSol Steam Generator is Quick and Easy

ThermaSol's Steam Shower generators can be installed up to 50 pipe feet away from the shower enclosure. There are numerous options for placement, which will conceal the generator and allow for a clutter-free bathroom. Generators can be stowed in a nearby bathroom console, in a closet next to the shower, and even in the attic. Ensure the location that you select allows for easy access to the product and is well ventilated. ThermaSol's CAN-bus communication cable allows for easy installation as it can be run through the wall, during the construction phase, plugged into the control and lastly mounted to the wall after the finish is set.

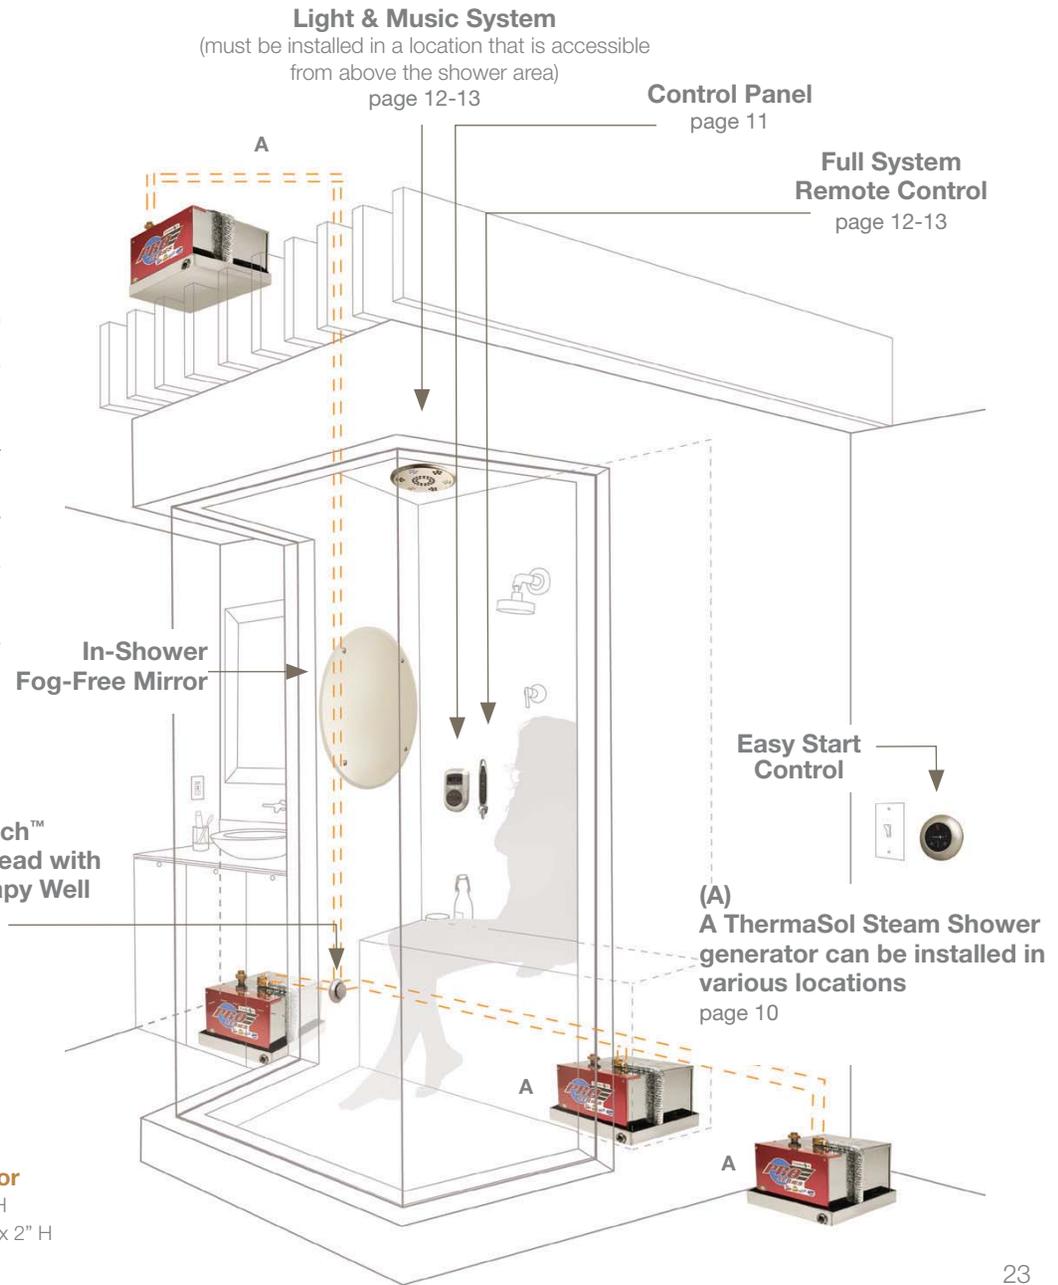

- “Roughing-in” is simple and fast
- Unit can be located up to 50 feet from shower location
- Plug-in power cord
- Low-voltage CAN-bus communication cable
- Customer service support - live and online

ProSeries™ only

- Quick connect stainless water supply
- Removable/integrated drain pan
- Pre-plumbed pop-safety valve

Patented NoTouch™ Retractable Steam head with Integral Aromatherapy Well

ProSeries™ Generator
Unit: 17" 11 1/2" W x 12" H
Pan: 18 1/2" L x 13 3/4" W x 2" H

A Lifetime of Enjoyment... No Questions... No Worries

All ThermaSol generators come with a LIFETIME WARRANTY, no questions asked! This guarantee on your investment is a true industry first. Finally, put your mind at ease knowing that you will always be covered. Simply send the unit to the factory and ThermaSol will cover the repair (including parts and labor).*

Additionally, ThermaSol's IN-HOME WARRANTY will cover the repair (including parts and labor) for three years on the ProSeries™ and two years on the Steam Shower AF series, from the date of your generator purchase.

* Applies to Steam Shower AF series and ProSeries™ generators manufactured after January 1, 2001. Details of warranty enclosed with product.

ThermaSol Advantage - Why ThermaSol is Recommended Best

Standard features on PRO & SSA generators:

100% Digitally Networked System (Solid-State)

The safest & most reliable technology; all other manufacturer's use old analog technology.

Simply Sized

ThermaSol generators are easy to size
LxWxH = Cubic Feet. No complicated formulas.

FastStart™ Technology

Steam in seconds, not 4 to 8 minutes!

All Metal Controls with Advanced PVD Lifetime Finishes

No plastic controls!

Whisper Quiet (patented design)

No potential water hammer or noisy water solenoid valves.

Warranty: PRO & SSA

Lifetime Warranty No Questions Asked!

An industry first. Put your mind at ease knowing that you will always be covered. Simply send the unit to the factory and ThermaSol will repair the failure, including parts & labor!*

ProSeries™ Three Year IN-HOME Warranty

For a period of three years from the date of your generator purchase, ThermaSol's warranty will apply to all parts found to have a material defect and labor required to replace or repair those specific parts.

AF Series Two Year IN-HOME Warranty

For a period of two years from the date of your generator purchase, ThermaSol's warranty will apply to all parts found to have a material defect and labor required to replace or repair those specific parts.

Constant Steam at a Constant Rate

No irritating steam lags and bursts hence a ThermaSol generator can be installed up to 50 feet away without upsizing to a larger unit.

Thermostatically Controlled Steam Head with Integral Aromatherapy Reservoir

Sleek, minimalist design comes with a PVD Lifetime Finish and retracts into the shower wall when not in use.

Superior Style

Only manufacturer that offers matching controls, a light & music system, steam heads, and remotes in traditional, contemporary and modern styles.

Water Conservation; The Green Side of Steam

ThermaSol Steam Showers use a fraction of the water required to power a regular shower. With environmental concerns on the rise, these units take only two gallons of water to power a 20-minute steam bath as opposed to regular showers which consume a minimum of 2.5 gallons per minute.

WARNING: Always have shower closed when steam bath is operating.

Do not use this product unless you have consulted with your doctor and received written permission to do so. Use of this product may be hazardous to your health.

Never attempt to fill aroma reservoir on the steam head when unit is in the "ON" position. Severe burns will occur.

Steam is HOT! Do not touch or go near the steam head from the time the unit is "ON", up to one hour after it has shut off. Severe burns will occur if you come in contact with the steam head or steam emitting from the steam head.

Your shower may be a slip and fall hazard. Check with your contractor or flooring manufacturer regarding the safe use of your flooring in a steam application. Slipping and falling into the steam head itself or into the stream of steam emitting from the steam head will cause serious burns, or physical injury.

If you are feeling dizzy, faint or starting to fall asleep immediately exit the steam room.

Do not use steam room under the influence of alcohol or drugs, as this can be hazardous to your health.

Do not use aromatherapy oils or skin care products or any product in conjunction with your steam unit without consulting with your allergist or doctor before use. These products may be hazardous to your health.

Do not use steam room if you are under the age of 16 unless you are supervised by an adult.
